The Excursion to Middleborough One Round of Pleasure.

"The half hath never been told" in regard to the sublime and picturesque beauty of the mountains of South-eastern Kentucky, and the half will never be told concerning the cordial hospitality and kindness of the people of that section and especially of the magic city of Middleborough, in the treatment accorded to the Kentucky newspaper gang that was taken there last week on an excursion second to none ever tendered to the Knights of the Quill by the hospital people of the different sections of this state. All told, there were about sixty representatives of Kentucky journalism, several of them ladies, together with about a dozen others of the fair sex, aboard the train of palace sleepers that steamed into Middleborough Thursday morning, under a driving rain that only added to the sublime beauty of the mountain scenery. After breakfast at the handsome new Middleborough hotel, the party was escorted to the Opera House, where an address of welcome was delivered by John M. Brooks, Mr. Woodson, President of the K. P. A., responding. Others also spoke, among them Gen. Alger, of Michigan, late commander-in-chief of the G. A. R., who was there by accident in his own private car, on a tour of investigation and perhaps investment.

Thursday afternoon was devoted to a trip around the city on the Belt Railroad and in the evening a splendid banquet and ball at the hotel crowned and closed the series of enchanting pleasures of the day.

Friday morning the party was taken to Cumberland Gap, the famous point only four miles further down the road, where the three states of Kentucky, Tennessee and Virginia meet. Here is the "Fincle," perhaps the highest point of all these noble mountains, and this was visited after a journey into the cave about half way up the mountain, known as King Solomon's. This wonderful hole in the earth has been explored several miles, and is destined to some day rival Mammoth Cave.

A most welcome lunch had been spread in this place of beauty by the Cumberland Gap Board of Trade. This trip embraced the day out and closed the visit of inspection to this most wonderful and enchanting region. Friday night the trip was made back to Louisville, and there the boys parted, after exchanging the pass word of the future, "Fadueh next June."

The mountains around Middleborough are notoriously rich in mineral resources, iron, coal and lead, and the city is destined to become a great financial and commercial center for the immense volume of trade that circles in that section. Millions are being invested there, principally by English capitalists, and it would seem that they are the parties who are destined to reap the rich harvest of the future.

there, and claims several thousand inhabitants now and her people have great faith in her future greatness, as the town is built, as it were, over a volcano of mineral wealth.

In some respects Eastern Kentucky cannot compare with our own section. She has no promise of agricultural greatness. The towns have no country back of them, and it is the belief of many that while that section may rival Western Pennsylvania in great mining centres, that her wealth will be tied up in the same.

Pronounced Hopeless, Yet Saved.  
From a letter written by Mrs. Ann E. Hurd of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in Consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth. I was taken with my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and hearty woman." Trial bottles free at the B. B. Garner Drug Co., regular size, 50c and \$1.00.

Another child killed by the use of opiate given in the form of Soothing Syrup. Brought Home.  
Romantic Miss: Did it ever occur to you what wonderful sights the deep sea divers must behold?  
Practical Man: Yes, once. It was when I was at sea in a storm.—Life.

A commencement orator in a Western college was delivering an eloquent speech on Washington. "What name," he asked, in one of his lofty rhetorical flights, "that name, is heard wherever men congregate, in the forum, the mart or the king's highway?" This was a well-turned sentence and he knew it. But all its effect was irretrievably spoiled by a commonplace little boy in the audience, who remarked to a friend whisper: "I guess he means 'Little Auntie Rooney'."

Guarantee Dr. Acker's Blood Elixir for it has been fully demonstrated to the people of this country that it is superior to all other preparations for blood diseases. It is a positive cure for syphilis poisoning, Ulcers, Eruptions and Pimples. It purifies the whole system and thoroughly builds up the constitution.

Before and After Using.  
At one time I had awful Sores and Pimples on my face, and after using two bottles of S. S. S. I was cured, and now have a nice, smooth complexion.

My Life A Burden.  
I was afflicted from my infancy with Catarrh and with eruptions on my face for ten years. I was attended by the very best Physicians, and tried a number of local purifiers, without permanent relief. The mineral ingredients settled in my bones, and caused Rheumatic trouble. My life was a burden to me, and my case was declared incurable, when I saw S. S. S. advertised. Eight bottles cured me entirely, and I feel like a new person.

Do You Want to Escape.  
Do you want to escape the chills and fever this season? No matter how much malaria is in the atmosphere and how many may be taken down in your neighborhood with malarial fevers, they could have escaped and you can escape by the use of that excellent remedy, Smith's Tonic Syrup, made by Dr. John Bull, of Louisville, Ky. It cures chills and fever when quinine fails. It is far better than quinine, for it leaves no unpleasant after-effects. Smith's Tonic Syrup is not an experiment. For many years it has been considered the only safe and certain cure for chills and fever. You do yourself great injustice if you fail to take this remedy, for it will cure you even when all other treatment fails.

## LOOK HERE!

On Aug. 27th Money was worth \$1.96 in New York City, the highest point it has ever reached since the war. What a glorious scent to a man who had \$25,000 in cold cash and was on a "still hunt" for a good time and place to invest in Clothing, Boots, Shoes and Men's Furnishings. One dollar would do almost the work of two. Manufacturers were ripe, full ripe for opportunities to convert their goods into hard bullion and it wasn't a question of price so much as it was quantity. The larger the quantity the more nearly you would be allowed to name your own price, and the quantity didn't disturb us much, the larger, the better. We quote a few items:
